

Endpoint Protection + Intercept X

Everything we know about prevention, detection, and response in a single agent, taking your protection into a new era.

Endpoint security has come a long way over the past 30 years. Classic antivirus file scanning just doesn't cut it anymore, so Sophos Endpoint Protection uses multiple next-generation techniques to give you complete, layered protection.

Highlights

- ▶ Anti-exploit zero-day defense
- ▶ Anti-ransomware CryptoGuard technology
- ▶ Innovative anti-malware, HIPS, malicious traffic detection and more
- ▶ Web, application, device and data control for comprehensive policy enforcement
- ▶ Web filtering enforced on the endpoint whether users are on or off the corporate network
- ▶ Root cause analysis
- ▶ Deep system clean
- ▶ Synchronized Security
- ▶ Lightning performance, even on older systems
- ▶ Simple, centralized management

Build Your Next-Gen Endpoint Protection

The days of straightforward file scanning are long gone. Your goal is now to prevent threats from reaching your devices, stop them before they run, detect them if they have bypassed preventative methods, and not just clean up malware, but analyze and undo everything it does to your endpoints.

Combining Endpoint Protection Advanced and Intercept X layers next-generation anti-exploit, anti-ransomware, root cause analysis and advanced system clean on top of best in class anti-malware.

Protect Vulnerable Software

Endpoint Protection anti-exploit technology stops threats before they become an issue by recognizing and blocking common malware delivery techniques, thus protecting your endpoints from unknown threats and zero-day vulnerabilities.

Effective Ransomware Detection

CryptoGuard technology detects spontaneous malicious data encryption to stop ransomware in its tracks. Even if trusted files or processes are abused or hijacked, CryptoGuard will stop and revert them without any interaction from the user.

Synchronized Security

Our Security Heartbeat feature lets your Sophos products share real-time security intelligence with each other. Sophos Central synchronizes that intelligence across your security products, creating more effective protection against advanced malware and targeted attacks. To take advantage of Sophos Security Heartbeat today, you'll need Sophos Endpoint Protection and a Next-Gen Firewall powered by Sophos Firewall OS.

Complete Control

Enforce your web, application, and device policies with ease, thanks to seamless integration within the endpoint agent and the Sophos Central console.

- ▶ Web Control: Category-based web filtering enforced on and off the corporate network
- ▶ Application Control: Point-and-click blocking of applications by category or name
- ▶ Device Control: Managed access to removable media and mobile devices

Four Steps to Protection

1. Visit sophos.com/endpoint to start your evaluation.
2. Create a Sophos Central admin account
3. Download and install the Endpoint Protection or Intercept X agent
4. Manage your protection via Sophos Central

Migrate From Sophos Enterprise Console

Already using Sophos Enterprise Console to manage your endpoint agents? You can migrate to Sophos Central management using our handy migration tool. Your partner can advise you if a license switch is needed. Find out more at sophos.com/migrate

Technical Specifications

Sophos Endpoint Protection supports Windows, Mac OS, and Linux. Sophos Intercept X supports Windows 7 and above, 32 and 64 bit. Not all features are available for all operating systems. The how-to-buy table below shows features for 32- and 64-bit versions of Windows 7 and above. Linux support is only available with Advanced-level licenses. Refer to sophos.com/endpoint-license-guide for full details.

How to Buy

		SKU	Endpoint Protection				Intercept	
			Endpoint Protection Standard	Endpoint Protection Advanced	Central Endpoint Standard	Central Endpoint Advanced	Central Endpoint Advance + Intercept X	Central Intercept X
MANAGEMENT		Sophos Central			✓	✓	✓	✓
		Sophos Enterprise Console (server installation required)	✓	✓				
PREVENT	BEFORE IT REACHES DEVICE	Web Security	✓	✓	✓	✓	✓	
		Download Reputation	✓	✓	✓	✓	✓
